

DAROUB

Hurghada coast · Egypt

A compact field guide

Beaches, reefs and marine life. Understand currents and prepare for the coast.

Reference edition dated 2026-09-17

A concise Daroub guide based on the listed sources. The location is approximate, not a trailhead. Check current weather and local closures before leaving.

27.260, 33.810 | Africa/Cairo

Inside this book

- 01 The place, from local sources
- 02 Understanding the terrain
- 03 Precautions & injury response
- 04 Choose your visit
- 05 Clothing for the setting
- 06 Access and transport
- 07 Season and day-of-trip conditions
- 08 Packing priorities
- 09 Nature to observe

01 The place, from local sources

Hurghada is a base for the Red Sea coast and Giftun Islands. A boat or underwater outing needs different preparation from a beach visit.

Egyptian Tourism Authority · Sun and sea

02 Understanding the terrain

Waves and currents move sediment and reshape beaches. Tides change water depth and exposed shore areas; rip currents can form close to beaches. Geology, winds, storms and coastal vegetation interact in this changing environment.

03 Precautions & injury response

Caught in a rip current, avoid fighting directly against it; float and signal. After a marine sting, leave safely and seek lifeguard guidance. Severe symptoms require emergency help.

NOAA · Beach hazards

04 Choose your visit

Choose the activity first: a beach visit, a glass-bottom boat, snorkelling or a qualified diving outing. Official tourism guidance lists Red Sea boat and island trips. A boat with viewing opportunities can be an alternative when you do not want to enter the water.

Egyptian Tourism Authority · Diving and snorkelling

05 Clothing for the setting

Practical packing: sun-protective clothing, a hat and sunglasses on shore or on deck. Take a dry change of clothes after water activities. Ask the activity operator what exposure protection and fitted equipment the conditions require.

National Park Service · Ten essentials

Egyptian Tourism Authority · Diving and snorkelling

06 Access and transport

Confirm your embarkation point, return time and what equipment the operator supplies. Check that the outing matches your swimming ability and experience. Shore access, boating and diving are different plans and should not share one assumed equipment list.

Egyptian Tourism Authority · Diving and snorkelling

07 Season and day-of-trip conditions

Sunshine alone does not confirm suitable sea conditions. Check the marine forecast, wind and local instructions before a boat or swimming outing. Let the operator confirm whether the selected activity can proceed; a calendar month is not a clearance.

NOAA · Beach hazards

Egyptian Tourism Authority · Diving and snorkelling

08 Packing priorities

Prioritise sun protection and a dry bag for items that must stay dry. For boating, confirm a correctly fitted life jacket for each person. For snorkelling or diving, confirm fitted equipment with the operator; never stand on or collect coral.

09 Nature to observe

The official source describes dolphin-viewing outings accessible from Hurghada; sightings are not guaranteed. Seagrass meadows provide habitat. This is a coastal example, not a verified meadow at this point.

Wildlife & plants

Dolphins

Information linked to regional sources

The official source describes dolphin-viewing outings accessible from Hurghada; sightings are not guaranteed.

Observe from a distance; do not feed, touch or collect. This guide cannot establish identification or edibility.

Egyptian Tourism Authority · Sun and sea

Seagrasses

Terrain example; not proof of presence at given coordinates

Seagrass meadows provide habitat. This is a coastal example, not a verified meadow at this point.

Observe from a distance; do not feed, touch or collect. This guide cannot establish identification or edibility.

NOAA · Seagrass habitat

Travel companions

A buddy-planning recommendation, not a safety guarantee. Remote or technical routes need group planning with a local expert. Avoid going alone.

Before you leave

Choose your route and turn-back point; check entry permissions and closures.

Check the forecast and save an offline map.

Review clothing, water, food and communication with your companions.

Agree a return time and alternative plan, and share them with a trusted contact.

Educational terrain examples, not a complete inventory or verified species list for these coordinates. Do not eat plants or animals based on this guide.
