

DAROUB

Dibba Al Fujairah shore and Snoopy Island

A compact field guide

Al Aqah coast on the Gulf of Oman, with snorkelling and diving around Snoopy Island; check sea state and operator on the day.

Reference edition dated 2026-09-18

A concise Daroub guide based on the listed sources. The location is approximate, not a trailhead. Check current weather and local closures before leaving.

Inside this book

01 Place and terrain

02 Equipment and preparation

03 Clothing and footwear

04 Access and transport

05 Season and conditions

06 Nature and identification limits

07 Visit precautions

08 Activity choice and booking

09 Rules and permits

01 Place and terrain

Dibba Al Fujairah shore at Al Aqah faces the Gulf of Oman, with Snoopy Island just off the beach near Sandy Beach Resort. Local tourism records coral reefs and marine life for diving and snorkelling. The marker is an approximate area marker, not a trailhead or a safe swim point by itself; the image is illustrative.

Fujairah Tourism · Al Aqah Beach

Sandy Beach Dive Academy · Snoopy Island

02 Equipment and preparation

Practical inference: prepare mask, snorkel and fins, or confirm they are included; some operator trips state that full gear is provided. Carry water, sun protection and a waterproof pouch for phone and keys. Rental gear is not proof that the sea is suitable; entry depends on same-day conditions and the guide.

Sandy Beach Dive Academy · Snoopy Island

Al Boom Diving · Snorkeling in Fujairah

National Center of Meteorology · ALBAHAR

03 Clothing and footwear

General advice, not a local requirement: use swimwear suitable for the setting, plus a rash vest or light suit for snorkelling and stable sandals for hot sand and rocks. For dive trips, follow the centre's wetsuit sizing, and keep a dry layer for the return vehicle.

Sandy Beach Dive Academy · Snoopy Island

Al Boom Diving · Snorkeling in Fujairah

04 Access and transport

The Al Aqah page describes resorts and hotels with private beaches, while dive centres run trips from the coast. Plan to arrive by car or taxi at your booked meeting point or a permitted public access, not at the coordinates. Confirm parking, entry and return time before leaving belongings behind.

[Fujairah Tourism](#) · [Al Aqah Beach](#)

[Sandy Beach Dive Academy](#) · [Snoopy Island](#)

05 Season and conditions

The National Center of Meteorology provides a marine service and warnings, and dive sources note that visibility and suitability vary with weather and sea state. Sunshine does not mean snorkelling is safe. Check sea and wind on the visit day, then let the operator confirm whether boat or shore entry can proceed.

[Sandy Beach Dive Academy](#) · [Snoopy Island](#)

[National Center of Meteorology](#) · [ALBAHAR](#)

[National Center of Meteorology](#) · [Early Warnings for All](#)

06 Nature and identification limits

Local sources record turtles, reef fish, blacktip reef sharks, rays and hard corals around Snoopy Island and the Fujairah coast. The list below is documented examples, not a full inventory or a sighting promise. Use it for broad recognition only; do not touch animals or collect coral or shells.

[Sandy Beach Dive Academy](#) · [Snoopy Island](#)

[Al Boom Diving](#) · [Snorkeling in Fujairah](#)

[Ministry of Climate Change and Environment](#) · [Marine environment and fisheries sustainability](#)

07 Visit precautions

Hazards are water, rocks, marine life and boat movement. Practical inference: enter with a buddy or guide, stay out of boat areas, and do not swim around the island if visibility, waves or stings change. UAE emergencies: police 999, ambulance 998, civil defence 997.

[National Center of Meteorology](#) · [ALBAHAR](#)

[National Center of Meteorology](#) · [Early Warnings for All](#)

08 Activity choice and booking

For a first visit, choose one clear activity: guided shore snorkelling or a dive trip with a recognised centre. Sources confirm diving and snorkelling at Al Aqah and Snoopy Island, but not daily operation. Book, then reconfirm timing, equipment, required swim ability and sea state.

[Sandy Beach Dive Academy](#) · [Snoopy Island](#)

[Al Boom Diving](#) · [Snorkeling in Fujairah](#)

09 Rules and permits

Do not treat the beach or island as an unrestricted area: follow resort or public-access rules, and any flags or lifeguard instructions where displayed. The UAE regulates and protects the marine environment through laws and protected areas, so do not touch corals or turtles or collect organisms. Keep emergency numbers and check marine warnings on the day.

Wildlife & plants

Green and hawksbill turtles

Information linked to regional sources

The local dive-centre page records green and hawksbill turtles around the island. This does not guarantee a sighting on any water entry.

Watch from a distance and do not chase or touch them; leave the water if the guide asks.

[Sandy Beach Dive Academy](#) · [Snoopy Island](#)

Reef fish

Information linked to regional sources

Sources list fish such as parrotfish, angelfish, clownfish, butterflyfish and snappers. These are sighting examples, not an identification key.

Do not feed fish or corner them for photographs; stay with the group and agreed route.

[Sandy Beach Dive Academy](#) · [Snoopy Island](#)

[Al Boom Diving](#) · [Snorkeling in Fujairah](#)

Blacktip reef shark

Information linked to regional sources

Dive sources document reef sharks around the site. Their mention is not a safe approach cue or a guaranteed sighting.

Stay calm and follow the guide; do not pursue the shark or try to touch it.

[Sandy Beach Dive Academy](#) · [Snoopy Island](#)

[Al Boom Diving](#) · [Snorkeling in Fujairah](#)

Rays

Information linked to regional sources

Dive pages mention rays among marine creatures that may be seen near Snoopy Island or the Fujairah coast.

Do not stand on a poorly seen animal in sand; leave it room to move and do not touch.

[Sandy Beach Dive Academy](#) · [Snoopy Island](#)

[Divers Down UAE](#) · [Discover the Best Diving in Fujairah](#)

Hard corals

Information linked to regional sources

Fujairah and Snoopy Island sources record coral reefs and dependent marine life. This note does not identify a scientific species.

Do not stand on, break or collect coral; controlled buoyancy matters more than a photograph.

Fujairah Tourism · Al Aqah Beach

Sandy Beach Dive Academy · Snoopy Island

Ministry of Climate Change and Environment · Marine environment and fisheries sustainability

Jellyfish

Terrain example; not proof of presence at given coordinates

General coastal precaution example: the fetched sources did not document a local species here, but marine warnings can change daily.

Practical inference: ask the operator about stings or flags before entering, and leave at any warning.

National Center of Meteorology · ALBAHAR

National Center of Meteorology · Early Warnings for All

Travel companions

A buddy-planning recommendation, not a safety guarantee. Remote or technical routes need group planning with a local expert. Avoid going alone.

Before you leave

Choose your route and turn-back point; check entry permissions and closures.

Check the forecast and save an offline map.

Review clothing, water, food and communication with your companions.

Agree a return time and alternative plan, and share them with a trusted contact.

Educational terrain examples, not a complete inventory or verified species list for these coordinates. Do not eat plants or animals based on this guide.
