

DAROUB

Mushrif National Park ghaf woodland

A compact field guide

Dubai public park protecting dry ghaf woodland: an honest UAE forest-terrain example with trails and designated barbecue.

Reference edition dated 2026-09-18

A concise Daroub guide based on the listed sources. The location is approximate, not a trailhead. Check current weather and local closures before leaving.

Inside this book

01 Place and terrain

02 Equipment and preparation

03 Clothing and footwear

04 Access and transport

05 Season and conditions

06 Nature and identification limits

07 Visit precautions

08 Activity choice and booking

09 Rules and permits

01 Place and terrain

Mushrif National Park is a large Dubai public park protecting native dry ghaf woodland, so it is used here as an honest UAE forest-terrain example, not a temperate forest. The marker is an approximate area marker, not a trailhead; the image is illustrative. Check on the day.

[Visit Dubai · Mushrif Park](#)

[UAE Birding · Mushrif NP](#)

02 Equipment and preparation

Practical inference: carry enough water, a charged phone and an offline park or route map. The ticket page lists public and car entry fees, and Mushrif Hub lists walking and cycling tracks; do not assume equipment is supplied for every activity. Check the source or operator on the day.

[Dubai Municipality · Mushrif Hub launched in Mushrif National Park](#)

[Dubai Public Parks · Mushrif general entry ticket](#)

03 Clothing and footwear

The visitor page advises comfortable shoes for hiking and carrying a hat and sunscreen, and states no dress code. General advice, not a local requirement: choose light covering clothes and stable footwear for sandy paths and barbecue areas; add a light layer only if the forecast suggests it.

[Visit Dubai · Mushrif Park](#)

04 Access and transport

The visitor page says bus 11A stops near the park and that Centrepoin is the closest Metro station, followed by taxi or bus from Rashidiya Bus Station. Use this for planning only; do not treat coordinates as final driving instructions, and check transport apps and gates before leaving.

[Visit Dubai · Mushrif Park](#)

05 Season and conditions

Mushrif remains partly exposed despite ghaf shade. The National Center of Meteorology identifies itself as the UAE weather source, and the visitor page says early morning or late afternoon may suit trail users avoiding sun. Choose the activity after reading same-day forecasts and warnings.

[National Center of Meteorology](#) · [National Center of Meteorology](#)

06 Nature and identification limits

The ghaf is a UAE tree with ecological and cultural value, and the birding guide describes Mushrif as one of the best local ghaf woodland examples, with more than 115 recorded bird species. Do not collect plants or wood, and treat the species list as possible recognition, not a promise.

[Environment Agency Abu Dhabi](#) · [Ghaf Tree](#)

[UAE Birding](#) · [Mushrif NP](#)

07 Visit precautions

The main hazard is heat and exposure, followed by cycling traffic and natural-surface trails. Practical inference: leave the route if tired, and do not enter fenced areas for night birds. For possible snakes or scorpions in dry habitat, do not handle the animal and seek help; in emergencies call 999, 998 or 997.

[Dubai Municipality](#) · [Mushrif Hub launched in Mushrif National Park](#)

[National Center of Meteorology](#) · [National Center of Meteorology](#)

[Wildlife Photography Journey](#) · [Snakes in the UAE](#)

08 Activity choice and booking

Visit Dubai lists many assigned barbecue areas, paid entry, and hours from 8am to 10pm on weekdays and until 11pm at weekends. Dubai Municipality lists a 9.7 km walking track and 50 km mountain-bike track. Choose one main activity and check hours on the day.

[Dubai Municipality](#) · [Mushrif Hub launched in Mushrif National Park](#)

[Visit Dubai](#) · [Mushrif Park](#)

[Dubai Public Parks](#) · [Mushrif general entry ticket](#)

09 Rules and permits

Practical rules: pay the listed entry fees, use only assigned barbecue areas, and stay on cycling and walking routes within your level. The ghaf source notes that cutting wild plants is prohibited, so do not break ghaf or collect wood. Check signs on the day; for emergencies call 999 police, 998 ambulance, 997 civil defence.

Wildlife & plants

Ghaf tree

Information linked to regional sources

Sources document indigenous ghaf woodland at Mushrif. This is a dryland tree, not temperate forest; its shade does not remove heat exposure.

Do not break branches or collect wood; official sources state that cutting wild plants is prohibited.

[Environment Agency Abu Dhabi](#) · [Ghaf Tree](#)

[UAE Birding](#) · [Mushrif NP](#)

Arabian babbler

[Information linked to regional sources](#)

The birding guide records this resident species as possible with some luck. This is general identification help, not a sighting guarantee on a busy visit.

Watch quietly from the path and do not chase it through the trees.

[UAE Birding](#) · [Mushrif NP](#)

Pallid scops owl

[Information linked to regional sources](#)

The birding guide notes the resident owl after dusk. Night viewing depends on lighting and closures, and is not a reason to enter fenced areas.

Use any torch sparingly and follow closures and signs; do not disturb the bird or visitors.

[UAE Birding](#) · [Mushrif NP](#)

Desert hedgehog

[Terrain example](#); not proof of presence at given coordinates

[Regional example](#), not a confirmed local record in the fetched sources: the desert hedgehog is nocturnal in dry UAE habitats and may eat scorpions.

Do not touch or lift it; slow down in car parks and internal roads toward evening.

[Wildlife Photography Journey](#) · [Desert Hedgehog](#)

Desert snakes

[Terrain example](#); not proof of presence at given coordinates

[Dryland precaution example](#): wildlife sources describe snakes in UAE habitats, but no specific species was confirmed for Mushrif in the fetched sources.

Stay on paths, do not put hands under rocks or wood, and call for medical help after any bite.

[UAE Government portal](#) · [Handling emergencies](#) (police 999, ambulance 998, civil defence 997)

[Wildlife Photography Journey](#) · [Snakes in the UAE](#)

Travel companions

A buddy-planning recommendation, not a safety guarantee. Remote or technical routes need group planning with a local expert. Avoid going alone.

Before you leave

Choose your route and turn-back point; check entry permissions and closures.

Check the forecast and save an offline map.

Review clothing, water, food and communication with your companions.

Agree a return time and alternative plan, and share them with a trusted contact.

Educational terrain examples, not a complete inventory or verified species list for these coordinates. Do not eat plants or animals based on this guide.
