

DAROUB

Wadi Wurayah National Park

A compact field guide

Fujairah mountain protected area and Ramsar site with freshwater wadis and pools; access is regulated and not for leisure now, marker approximate.

Reference edition dated 2026-09-18

A concise Daroub guide based on the listed sources. The location is approximate, not a trailhead. Check current weather and local closures before leaving.

25.400, 56.250 | Asia/Dubai

Inside this book

- 01 Place and terrain
- 02 Equipment and preparation
- 03 Clothing and footwear
- 04 Access and transport
- 05 Season and conditions
- 06 Nature and identification limits
- 07 Visit precautions
- 08 Activity choice and booking
- 09 Rules and permits

01 Place and terrain

Wadi Wurayah in Fujairah's Hajar Mountains is a mountain protected area and Ramsar site with freshwater streams and pools that are unusual in an arid setting. This is an approximate area marker, not a trailhead or entry invitation; the image is illustrative. Treat access as regulated and check on the day.

Emirates Nature-WWF · Helping establish the Wadi Wurayah National Park

Ramsar Sites Information Service · Wadi Wurayah National Park

Ministry of Climate Change and Environment · محمية وادي الوريعة الوطنية

02 Equipment and preparation

Practical inference: before packing for a long outing, confirm the visit purpose and approved permit or programme; the authority page says requests may be approved or rejected and current leisure entry is not allowed. Carry ID, personal water, offline approval details and a lamp only if a night activity is organised.

Fujairah Environment Authority · تسجيل زائر وادي الوريعة

Emirates Nature-WWF · Emirates Nature-WWF launches first Winter Camp to support conservation of nature and wildlife

03 Clothing and footwear

General advice, not a local requirement: use light covering clothing and closed mountain footwear for rubble and rock, with a hat and sun protection. For authorised night or water-adjacent work, add a light layer and do not rely on shade or wet clothing for cooling; change plans if warnings are issued.

Emirates Nature-WWF · Leaders of Change make an exciting discovery in Wadi Wurayah National Park

National Center of Meteorology · Early Warnings for All - UAE

04 Access and transport

Do not use the coordinates as driving instructions. The ministry describes coastal access toward the area, but the authority page makes entry conditional on approval. Arrange a written meeting point with the organiser, and do not drive inside the reserve or on dirt tracks unless the current permit explicitly says so.

Ministry of Climate Change and Environment · محمية وادي الوريعة الوطنية

Fujairah Environment Authority · تسجيل زائر وادي الوريعة

05 Season and conditions

Practical inference: a mountain wadi can combine exposed heat with sudden runoff after rain. Do not treat averages or pool photographs as today's conditions; check National Center of Meteorology warnings and organiser channels, and postpone any visit request if rain, flooding or heat would make evacuation difficult.

Ramsar Sites Information Service · Wadi Wurayah National Park

National Center of Meteorology · Early Warnings for All - UAE

06 Nature and identification limits

Sources document freshwater pools, waterfalls and many species, including Arabian tahr, Blanford's fox, Arabian caracal, Garra fish and scorpions. This is an awareness list, not a field guide; do not touch water, rocks or plants, and collect no sample unless supervised research permission covers it.

07 Visit precautions

Hazards are tied to the mountain wadi rather than a published trail: flash runoff, slippery or loose rock, heat, and scorpions or reptiles during night work. Practical inference: do not enter a wadi channel under rain warnings, and do not leave the authorised group. For UAE emergencies keep 999, 998 and 997.

08 Activity choice and booking

Public visiting should not be assumed. Fujairah Environment Authority says entry for entertainment or recreational activities is currently not allowed, while another source describes rare access through citizen-science or restoration programmes. Choose an activity only after written approval, and check on the day that it still runs.

09 Rules and permits

Core rules: request permission through the official channel and accept that it may be refused. Do not plan leisure entry, swimming or independent hiking. Do not litter, light fires or drive off-road; authority terms prohibit harming living organisms or the environment and require prior approval for photography. For emergencies use 999, 998 or 997.

Wildlife & plants

Arabian tahr

Information linked to regional sources

Ramsar and monitoring sources document Arabian tahr in Wadi Wurayah. This is broad recognition guidance, not a promise of a sighting or location inside the reserve.

Observe only at distance and with specialists; do not chase it or try to attract it with food.

[Ramsar Sites Information Service](#) · [Wadi Wurayah National Park](#)

[Emirates Nature-WWF](#) · [Caught on Camera: Elusive Blanford's Fox spotted in UAE's Wadi Wurayah National Park](#)

Arabian caracal

Information linked to regional sources

Motion cameras documented Arabian caracal in the park. A rare nocturnal predator's presence is not an invitation to approach and does not guarantee recovery.

Follow organiser instructions and do not move at night outside an authorised programme.

[Emirates Nature-WWF](#) · [World Habitat Day: Arabian Caracal rediscovered in UAE's Wadi Wurayah National Park](#)

Blanford's fox

Information linked to regional sources

The monitoring initiative reports images of Blanford's fox in Wadi Wurayah. It can be nocturnal and shy, so do not expect a short visit to reveal it.

Do not use lights or playback to attract it; leave detection to cameras and researchers.

[Emirates Nature-WWF](#) · [Caught on Camera: Elusive Blanford's Fox spotted in UAE's Wadi Wurayah National Park](#)

Wadi Garra fish

Information linked to regional sources

Ramsar records freshwater habitats important for spawning, including Arabian Peninsula Garra fish. This does not mean pools are open for swimming or handling.

Do not enter pools or move aquatic life unless a clear research permission covers it.

Ramsar Sites Information Service · Wadi Wurayah National Park

Orthochirus scorpion

Information linked to regional sources

A citizen-science night survey describes many scorpions and an Orthochirus scorpion needing specialist confirmation. Treat this as a safety note, not an identification key.

Wear closed footwear and do not put hands under rocks; leave handling to specialists.

Emirates Nature-WWF · Leaders of Change make an exciting discovery in Wadi Wurayah National Park

Travel companions

A buddy-planning recommendation, not a safety guarantee. Remote or technical routes need group planning with a local expert. Avoid going alone.

Before you leave

Choose your route and turn-back point; check entry permissions and closures.

Check the forecast and save an offline map.

Review clothing, water, food and communication with your companions.

Agree a return time and alternative plan, and share them with a trusted contact.

Educational terrain examples, not a complete inventory or verified species list for these coordinates. Do not eat plants or animals based on this guide.
